

1040 Eden Bower Lane,
Redwood City, CA 94061-1806

Mr. Troy Miller
President
Western Roofing System
3401 Investment Blvd, #5
Hayward, CA 94545

Dear Troy,

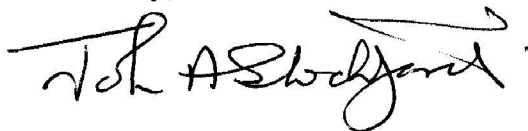

I want to personally thank you and the staff of Western Roofing Systems for the fine Metro metal roof which they installed on my home last month. I was surprised that the time taken for tear-off, preparation and installation only took three days, but your crew was obviously very experienced and worked hard to complete the task.

After each days work the area around my home was policed and all rubbish carefully removed, and at all times I was kept appraised of the actions which would and did occur.

The Redwood City Inspector commented that the installation was a first class job when he made his final inspection. I don't think that anyone could ask for a more positive endorsement that that!

So my meeting with Timothy Florez at the San Mateo Home and Garden Show in late February concluded with my choice of Western Roofing System to provide a new roof for my home. Although I must confess that the recommendation of my friend, Mrs. Irmengard Villarreal of 1098 Eden Bower Lane who also used your services a few years ago and spoke very highly of your Company, greatly influenced my choice! A choice that I have no cause to regret!

Sincerely,

John A Stockford
